Innovative, self-taught software developer with a passion for problem solving and building things. Specializes in full-stack development, code-architecture design, project vision, solution results, JavaScript, React, Express.js, Node.js and postgreSQL.

Professional Experience

Gwinnett Training Academy   2021 - Present
Account Manager   *Lawrencville, GA*

- Responsible for facility income finances.
- Spearheaded company income loss prevention.
- Facilitated the transfer of in-house documents to online resources.

Projects

wordWizards
https://wordwizards.onrender.com/

- A full stack social media/blogging website.
- It allows users to create, like, comment and share posts as well as other CRUD operations.

Pleigns
https://pleigns-api.onrender.com/

- A full stack e-commerce website about buying airplanes.
- It allows users to browse, add to cart, checkout and other CRUD operations.

Good Eats!
https://goodeats.fun/

- An app that allows users to search for recipes according to their preferences and ingredients available.
- The app works by interacting with the Spoonacular API.

Reddit Reduced
https://reddit-reduced.netlify.app/

- Designed an app that interacts with the reddit API to return posts based off subreddits.
- Allows the users to browse different subreddits and read posts as well as comments.

Education

Codecademy
Full-stack engineering path

- Learned about implementing various languages such as JavaScript, React, HTML, CSS, Bash and other technologies.
- Created successful full-stack apps from end to end using the PERN stack (PostgreSQL, Express.js, React, Node.js).
- Learned about DevOps, Working in teams, and implementing best practices.
- Demonstrated my understanding of crucial cybersecurity practices to secure web apps.
